Hi David,

Thanks for getting back to me. Sounds like a later call that includes everyone (staff, management, and attorneys) is best, so let's try to schedule a time for that. You mentioned Maggie being busy until 9/9, so here are some times that work for us that week: (These are all MT time, so would be one hour later for you)

Monday 9/9: 8-9am
Tuesday 9/10: 8-9am
Wednesday 9/11: 8-10am
Thursday 9/12: All day open except noon-1pm

Let me know what works for you all.

Thanks,

Patrick

Hello Patrick,

We have no objections to Sara or Andrea participating a future call to discuss Coyote Station. Per direction from my managers - we would, however, like to wait until Maggie has availability to participate as well (which isn't until early Sept.). I believe I have captured EPA's significant concerns regarding the draft source determination and draft response to comments letter and I can relay these concerns effectively to the NDDEQ team. For efficiency reasons, I would like to brief the entire NDDEQ team at the same time in advance of the larger discussion with your team.

Was there something specific you had in mind that we should discuss in addition to what you and I covered in our call on August 1st? If so, you and I should be able to connect and I can capture these additional concerns and include them in my brief to the NDDEQ team.

Also - we (I) must have some phone issues going on as I never received a voicemail (or missed call) from you yesterday. I will look into this.

Sorry for the delay in availability on our end, been a hectic couple of days/weeks/months for us. I will keep you informed of future availability when I have more information.

David

Hey David,

I left you a voicemail about setting up this call. Sara wants to know if would be alright with your office if she and Andrea (the EPA headquarters attorney who has been collaborating on this issue with us) listened in on the call just to stay current with our conversations. Sara could then have a follow up call with Maggie in September. Either way I think we should go ahead with scheduling the call for August 20th. However I just realized I forgot to account for the hour time difference between our offices. So the windows for us are 8/20 8-9am or 10-11am but for you would be 9-10am and 11am-noon. Do either or both of those times still work for you and Jim (and Craig, if he will be participating)?

Thanks,

Patrick

Morning Patrick,

I will have to get back to you on scheduling a call to discuss Coyote Station. Maggie is currently very busy with 2 other case briefs she is working on that are due in early September and will not have time to redirect her attention to this matter.

That said, if you think it would add value to discuss without her involvement, either of the times on August 20th (8-9am, or 10-11am) will work for Jim and I. Otherwise, we will probably have to wait until the week of September 9th to discuss. Let me know what you think, I apologize for the potential delay – I was unaware of Maggie's current workload until we spoke yesterday.

David

Great, thanks. Also, due to some travel changes the Monday 8/12 times no longer work for us.

Thanks for the available times. I am meeting with Margaret Olson this afternoon, I will check with her then to see if one of these works for her and let you know.

Hey David,

Let me know if any of these times can work for your side to schedule an hour long call:

Monday, 8/12 8-9am, or 1-2pm
Tuesday, 8/20 8-9am, or 10-11am
Thursday, 8/22 8-9am, or between 2-4pm

Thanks,

Patrick Wauters
